# **SITUATION SUMMARY**

## **MEDICAL AND HEALTH COORDINATION CENTER ACTIVATED IN RESPONSE TO THE EBOLA**

- The California Department of Public Health (CDPH) and Emergency Medical Services Authority (EMSA) activated the Medical and Health Coordination Center (MHCC) at Level 1 in response to Ebola on 10/08/2014 at 1000 hours. While there is no case of Ebola currently in California and the public health risk of contracting Ebola is low, the MHCC is activated to support Ebola preparedness and readiness of California's healthcare providers, local health departments and public health laboratories.
- The Richmond Campus Coordination Center (RCCC) will be activated for technical and subject matter support for response. The MHCC will support the RCCC and provide information sharing and coordination of other CDPH programs active in the response, including Licensing and Certification and the Environmental Management Branch. It is anticipated that this Level 1 (low-level) activation will provide the current needed coordination; however, the situation will be monitored and response scaled to meet the evolving situation.
- The MHCC will be open Monday through Friday from 8:00 a.m. to 5:00 p.m. until further notice.

# **SITUATION SUMMARY**

## **Cal OES Coastal Region – Planned Event and Major Exercise**

Monday, 10/06/14 through Tuesday, 10/14/14, the San Francisco Center for Humanitarian Disaster Response (SFCHADR), announces the return of Fleet Week to San Francisco. This year's program will feature several exercises, which include the delivery and demonstration of a United States Marine Corps (USMC) Shock Trauma Platoon at General Hospital, the 'Fifth Annual Senior Leaders' Seminar, the return of the popular 'K9 Heroes Program', and the exchange of best practices with San Francisco Fire Department's (SFFD's) Urban Search and Rescue team. Military medical and air teams will demonstrate the military's capability to enhance overall patient care capabilities within the city following a large-scale disaster (by invitation only).

Further San Francisco Fleet Week Information: <http://www.fleetweek.us/>

The Blue Angels will be conducting practice flyovers around San Francisco on Thursday, 10/09/14 and Friday, 10/10/14, from 1230 – 1600 hours.

The Air Show will commence on Saturday, 10/11/14 and go through Sunday, 10/12/14.

# SITUATION SUMMARY

## El Nino Update:

Very little change in the El Nino status this month:

- Conditions are still favorable for the development of an El Nino over the next two months. The NWS currently is forecasting about a 67% probability that an El Nino will develop in the November through January time frame. The NWS is continuing the El Nino Watch that was first issued in March. An El Nino Watch simply means that conditions are favorable for the development of an El Nino within the next six months. So, while we are currently not in an El Nino event, forecasters still expect an El Nino event to emerge over the next couple of months. Current forecasts are pointing to any El Nino that develops to be a weak El Nino event.
- The strongest correlations with increased precipitation occur with strong El Nino events, AND, this correlation is strongest across southern California. NWS's best estimate is that the El Nino event will be a weak strength event. There is, unfortunately, little correlation between weak El Nino events and above-normal precipitation. In the past, above normal precipitation has occurred during some of these events, while below-normal conditions have occurred during others. The 1976-77 drought occurred during a weak El Nino. That is not to say that drought conditions will continue this winter; rather, it is to simply emphasize that, especially with weak El Nino events, NWS cannot say with any certainty what the character of the precipitation will be this upcoming winter.
- The current three-month forecasts for precipitation probabilities can be found here: <http://www.cpc.ncep.noaa.gov/products/predictions/90day/>. The current forecasts show slight probabilities for above-normal precipitation, mainly across southern CA through early/mid-winter. There is no signal over most of the state; hence, the probabilities favor neither above normal nor below normal precipitation. The slight probabilities for above normal precipitation across southern CA reflect the weak El Nino forecast. These three-month precipitation probability forecasts will be updated on Thursday October 16.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

Dry conditions will persist through the weekend. Temperatures will cool through Friday and then warm inland by Sunday. Rain and cooler temperatures will return next week.

#### **San Francisco Weather:**

Slightly cooler weather is forecast for today and Friday. A brief warming trend is then forecast for the weekend as an upper level ridge builds near the west coast. A change in the weather pattern early next week will result in much cooler weather by midweek, along with a chance of precipitation.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Continued dry and warm through the weekend, with a significant cool down and a chance of showers beginning Tuesday.

#### **Hanford Weather:**

Mostly clear skies and much above normal temperatures will continue through the holiday weekend. A cool down to near normal temperatures is expected by midweek next week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Temperatures will be several degrees above normal through Saturday as a weak upper level ridge of high pressure persists. Marine layer cloudiness will affect mainly coastal areas as well. Further warming is then likely Sunday and into early next week as stronger high pressure nudges into northern California. A broad trough of low pressure will bring cooling to the area for the middle of next week.

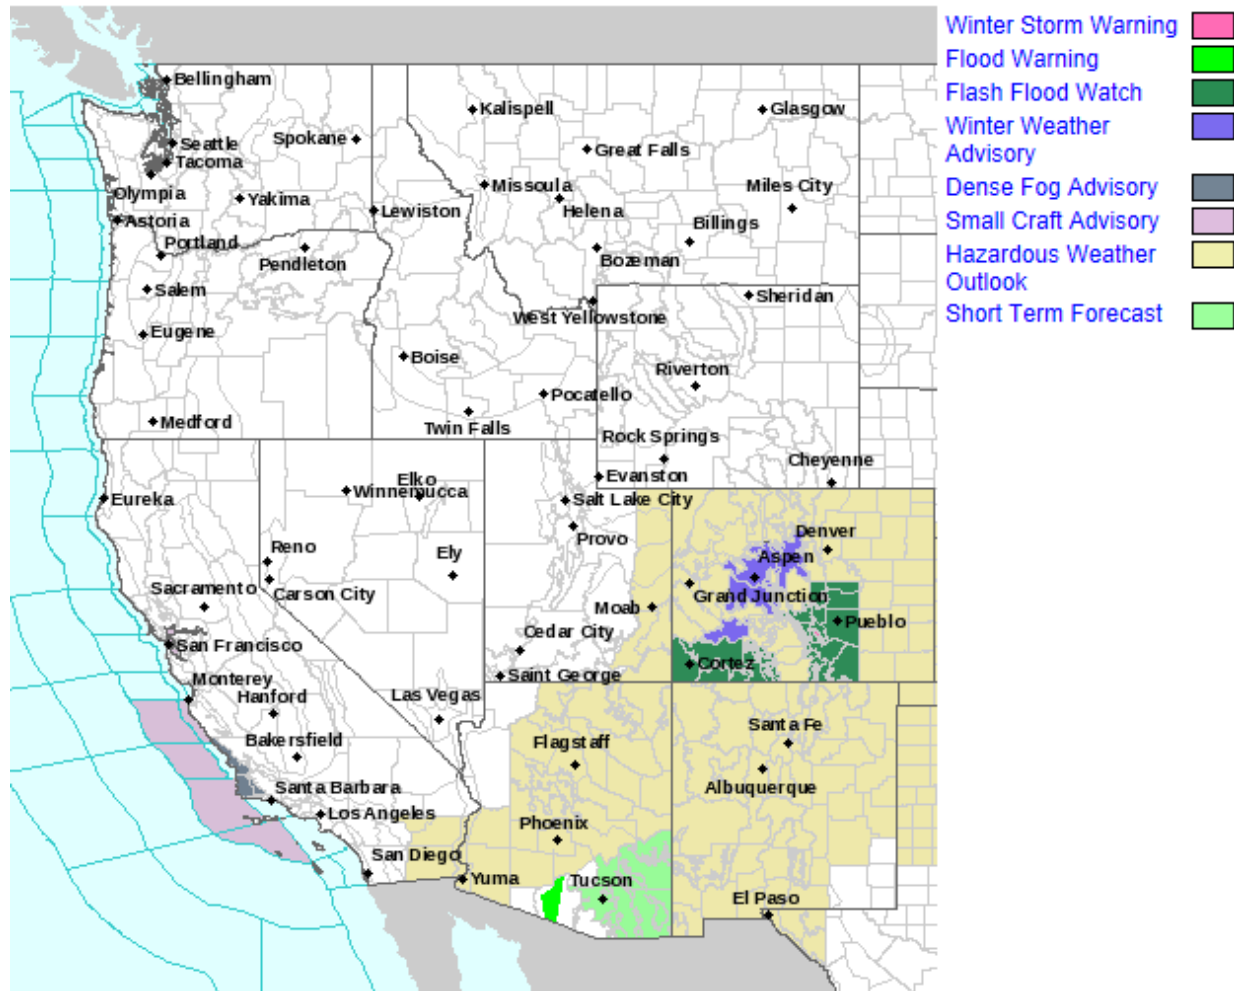

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Fair weather will prevail through the middle of next week. Seasonable temperatures today will give way to a slow increase through early next week as high pressure aloft rebuilds. Temperatures will be 5 to 10 degrees above normal Sunday and Monday, and then temperatures will settle back to near normal mid next week as a stronger onshore wind pattern develops. Areas of low clouds will occur most nights and mornings near the coast with a chance of dense fog there over the weekend.

#### **Southeast California Weather:**

Lingering showers are possible across portions of the area today as a trough moves through the region. Following the trough much drier air will move into the area resulting in mostly clear skies and near normal temperatures through late next week.

### **Recovery Activities**

- On 10/01/14, the U.S. Small Business Administration (SBA) approved a disaster declaration making SBA assistance available in the primary County of Siskiyou and the contiguous counties of Del Norte, Humboldt, Modoc, Shasta, and Trinity, making low-interest federal disaster loans available to homeowners, renters, businesses of all sizes and private nonprofit organizations whose property was damaged or destroyed by the Boles Fire. In addition, a Disaster Loan Outreach Center opened Wednesday, 10/01/14, at 1200 hours, located at the College of the Siskiyou's Life Science Building 3, Room LS-1, 800 College Avenue, Weed, California 96094, Mondays – Fridays, 0900 – 1800 hours (Closed 10/13/14 for Columbus Day). Notification letters have been distributed.
- On 10/06/14, the Governor issued Executive Order (EO) B-27-14, which provides CDAA, and debris removal assistance, including the suspension of rules and regulations impacting debris removal.
- Non-food items have transitioned from the Salvation Army to a collaboration of four non-profit agencies that will be involved in the distribution of items such as baby clothes, diapers, clothing, etc.
- The Cal OES VAL continues to coordinate and participate in Long Term Recovery meetings with NGO, Faith Based, and local agencies. On 10/03/14, the Cal OES VAL attended a Long Term Recovery meeting. A mission statement and bi-laws for the long term recovery group were presented, officers were identified, and leads for several committees were formed. Shasta Community Foundation was identified as a fiscal agent for the group and a meeting with agencies that have accepted donations will be held on 10/10/14. Northern California VOAD is supporting the group with long term recovery efforts.
- The College of the Siskiyou's website contains a Fire Resource List of various local agencies offering goods and services. The document can be found at <http://www.siskiyous.edu/humanresources/documents/fireresourcelist.pdf>.
- Food donations are being accepted at 310 Boles Street.
- On 10/02/14, Cal OES Recovery and City staff inspected the City's water system to determine a full Scope of Work, which will be presented, along with the construction contract, to the City Council for approval on 10/09/14.
- Only one family has expressed interest in the temporary sheltering program; the City and family are reviewing the options with no commitment from either side yet.
